Artem Aliev

Product Manager

alievlin alievgithub alievae0410@gmail.com +7-964-585-6317

SUMMARY

Product Manager with 2.5+ years of experience in B2B/PaaS products. Expertise in product discovery, data-driven prioritization (RICE), and cross-functional team coordination. Proven track record of improving retention (+11 p.p.), launching features with 21% adoption, and driving revenue growth (+30% MoM). Strong technical background (MIPT) with hands-on analytics skills.

EXPERIENCE

1C Company — **Moscow, Russia**

Product Manager, PaaS Platform — *October 2023 - Present (2 years 7 month)*

- Managed roadmap and backlog for B2B2C platform (25K+ developers, 1.5M+ MAU) using RICE prioritization, coordinating 40+ developers across 3 teams
- Led product discovery: conducted 50+ customer interviews, validated hypotheses through quantitative surveys and churn analysis
- Increased 1st month retention by 11 p.p. (16%-27%) in 8 months through onboarding redesign and documentation improvements
- Launched Web-to-Mobile Converter from discovery to release; achieved 21% adoption among production apps
- Attracted 18 strategic B2B partners via conference presentations; drove +30% MoM revenue from on-premise servers
- Built automated feedback system (in-app surveys), reducing hypothesis validation cycle from 2 months to 2-4 weeks
- Created product metrics dashboard from scratch using SQL and 1C:Analytics

Stack: Jira, Confluence, Figma, Python, SQL, CustDev, RICE

Department of Special Projects at the State Corporation — **Moscow, Russia**

Strategy Analyst — *April 2023 - August 2023 (5 months)*

- Conducted market and competitor analysis for import substitution strategy in energy sector
- Developed predictive models (Python: time series, correlation analysis); improved forecast accuracy by 20%
- Defended strategy to government stakeholders; project approved for implementation

Stack: Python (Pandas, NumPy), Excel, PowerPoint, PESTEL, Data Modeling

BIC Group (ex. Roland Berger) — **Moscow, Russia**
